## Kapitel 12: TRIP TO SIN

Welcome to hell  
It's nice to join us  
Let's greet Ceberus and give him your hand as present  
The demons will enjoy drinking your blood  
I hope you'll have a nice trip to nowhere  
'cause you can't go back

Jump off a bridge and let your body be destroyed by an ICE  
I will celebrate your death with colourfull balloons  
Angels' choir will accompany you to Petrus  
The gates are closed for you  
You'll fall down like a shooting star and burn in lava streams

Sodom and Gomorra is opened twentyfour ours a day  
Have fun staying there forever  
The living won't miss you so fuck yourself

Jump off a car, while it drives twohundred kilometers  
Let your extremity be spread in all directions  
It would be a pleasure to kill you, if you're afraid  
My knife is always ready to grant you freedom

Welcome to your nightmare  
Lucifer will pull out your guts  
bonded with a bow he'll give the present to his subjects  
They will enjoy the meal  
I wish you a nice stay  
'cause you can't wake up

SODOM AND GOMORRA  
Opened for everybody  
SODOM AND GOMORRA  
Have a nice orgy
