Kapitel 4: [land]

A dark [land]
Where the sun never shines
And the light will never
Stay any chance

Abandoned by friends
Taken by darkness
Swallowad by loneliness
Used by evil

A sword of shadows
Mere destruction and death
Wielded by a crying heart
And swung to relieve the sorrow
Handing himselfe out to the darkness
Embodying the king of all heartless
An image of an old trustful friend
Haunting his mind in secret

Saving a love
With the power of despair
The wrong path was chosen
And stubbornness was the leader

The sword that eats souls
Against a blade that protects them
The [land] against the [sky]

The strength of the desire will decide...
