Kapitel 12: together forever

Together forever

Together we make to light the way in the dark
even if must go alone on this way
only we don't know is that the right way?
But one think you know

If you must go alone on the way
I'll be on your site
To light your way
Forever – together

waht do you see? What is that?

You can to reckon that I'll be on your site
Even if is to be hard
Take my hand
The journey would to be trying
But one think you know

never mind how hard it is
I'll be on your site
To be srtong for me and you
Forever – together

waht do you see? What is that?

The time elapses, she is coming
She takes what she want
Even if you and me
But one think you know

never mind how long we go
never mind how mountains we to traverse
how rivers we to cross
only you and me
together forever

waht do you see? Is that what do you want?

together forever
